Open Banking – a quarterly report

What can this report tell me?

This report is a good way for you to see how we're performing in Open Banking.

We'll usually publish it four times a year and it will help you to see:

- how long all of our online services are up or down (otherwise known as 'uptime' or 'downtime').
- how long all of our online services take to respond to each and every request.
- how frequently we have errors that mean that other websites or apps can't talk to our systems.

Why do we publish this?

We do this, because both the European Banking Authority and the Financial Conduct Authority want to make sure that you're getting the best possible service – as do we. This means that each and every financial provider in Open Banking needs to publish the same types of data.

How can I find out more about Open Banking?

To find out more about what we offer and how we're doing it, take a look at our Open Banking pages.

www.bankofscotland.co.uk/aboutonline/open-banking

If you're more interested in the technical side, take a look at the Open Banking Standard pages.

Service availability

April - June 2025

We aim to be available all the time. But, from time to time, there might be some planned or unplanned downtime. The bar chart and figures below, show just how available we've been this quarter.

How long our service has been available for (%)

What the source data looks like

		Open Banking	Business Internet Banking	Business Mobile Banking
April	Availability	99.90%	100.00%	99.99%
	Planned downtime	0m	0m	3m
	Unplanned downtime	45m	2m	4m
May	Availability	99.98%	99.76%	99.72%
	Planned downtime	0m	25m	1h 17m
	Unplanned downtime	11m	1h 21m	51m
June	Availability	99.96%	99.95%	99.89%
	Planned downtime	8m	24m	45m
	Unplanned downtime	8m	0m	1m

Account information services

April - June 2025

We like to measure how long it takes us to respond to each account information request. So, whatever information you're sharing, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to account information requests (in milliseconds)

What the source data looks like

	Open Banking	Business Internet Banking	Business Mobile Banking
April	321ms	2,113ms	711ms
May	368ms	2,204ms	732ms
June	316ms	2,232ms	665ms

Payment services

April - June 2025

We like to measure how long it takes us to respond to each payment request. So, whatever payment's being set up, we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to payment requests (in milliseconds)

What the source data looks like

	Open Banking	Business Internet Banking	Business Mobile Banking
April	1,511ms	5,107ms	804ms
May	1,720ms	5,151ms	800ms
June	1,421ms	4,995ms	759ms

Funds checking services

April - June 2025

We like to measure how long it takes us to respond to each funds checking request. So we will always track how fast we are. The bar chart and figures below, show just how quick we've been this quarter.

How long it's taken us to respond to funds checking requests (in milliseconds)

What the source data looks like

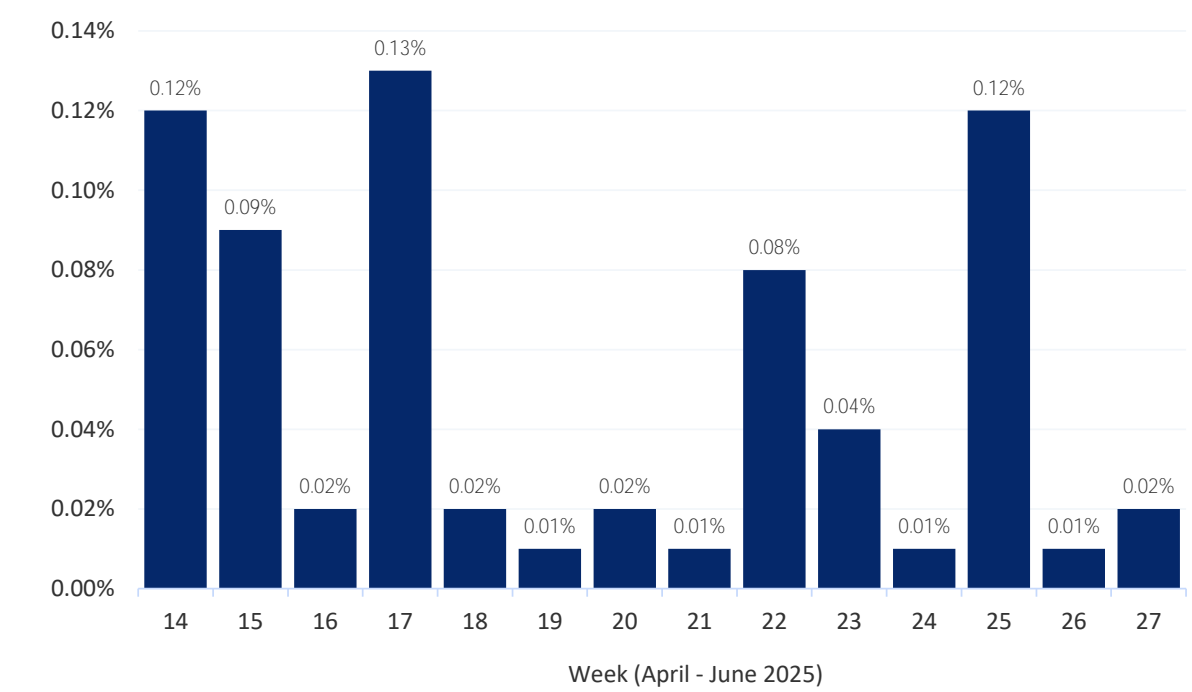

Open Banking	
April	458ms
May	519ms
June	447ms

Error rates

April - June 2025

Sometimes, when a website or app tries to talk to our systems, there may be a problem. If we can't provide them with an access point (also known as an 'API'), then the request will fail and we will report it as an error. The bar chart and figures below, show the error rates this quarter.

What our error rates have been (%)

What the source data looks like

Week	14	15	16	17	18	19	20	21	22	23	24	25	26	27
Rate (%)	0.12	0.09	0.02	0.13	0.02	0.01	0.02	0.01	0.08	0.04	0.01	0.12	0.01	0.02
