Reference Interest Rates can vary either up or down on a daily basis.

The Credit Reference Rate is the rate currency accounts are linked to for credit interest and is set at 0.25% below Reference Interest Rate (if Reference Interest Rate falls below 0%, it will be treated as 0% until such time it exceeds 0%).

The Debit Reference Rate is the rate currency accounts are linked to for debit interest and is set at 0.25% above Reference Interest Rate (if Reference Interest Rate falls below 0%, it will be treated as 0% until such time it exceeds 0%).

The appropriate debit and credit margins are then applied.

Unauthorised borrowing for accounts held in the currencies above is charged at the Debit Reference Rate of the account's currency +12% margin (if Reference Interest Rate falls below 0%, it will be treated as 0% until such time it exceeds 0%).

If you wish to have details about the interest rates applicable to other currencies not listed, please contact your Relationship Manager or Business Management Team.
